

# AA9604

## Full-Featured Auto Attendant System

The AA Series is a full function Auto Attendant System. In addition to the Auto Attendant function, it also provides Voice Mail function. It supports 5 personal voice mailboxes and 1 public voice mail box. The total recording time can be up to 96 minutes. The AA Series can be integrated with all major PBX easily. Its state-of-the-art design will greet your customers and transfer them to the correct person or department. The advanced DSP (Digital Signal Processing) technology generates clear voice and provides sensitive tone detection. With flexible design, the AA Series play diversify announcement in different business hours.

### Advanced Voice Communication Solution

The AA Series provides virtually unlimited menu choices and routing possibilities. Up to six different greetings (day, noon, night, foreign language, temporary announcement, and department inquiry) are easily interchangeable, and can be arranged according to individual company needs.

After business hours and lunch breaks are properly set, the AA Series will auto switch the greetings to Day, Night or Noon greetings. When necessary, users can also change the operation mode manually.

It is very easy to set up and manage the AA Series. Simply dialing into the system directly with touch-tone phones and input the system password, then you are ready to set up the system parameters. The AA Series also provides a greeting recording password allowing non-technical personnel to record announcement without the risk to change the system settings. The built-in voice prompts will guide you through the settings step by step.

# Auto-Attendant for Effective Business
